INTERIOR

7–9 Passenger (plus 2 crew) seating designed for passenger comfort. Flight compartment separated from the cabin by curtains. Forward cabin features one single-club with side facing dual couch just aft of the right hand forward cabinet. Main cabin offers six individual pedestal seats that track forward and aft 7 inches with 180 degrees swiveling capability, recline to an infinite number of positions including full berthing, and feature individual USB charging ports. All passenger seats are equipped with seat belts and an overwater life vest stored in the base. Aft lavatory separated from cabin by sliding divider doors that includes large sink with water. A belted seat on the left side of the lavatory can be occupied for takeoff and landing. Interior features a left hand refreshment center with one hot beverage tank, ice drawer, trash receptacle, numerous storage areas, glassware and catering capabilities. Cabin-length indirect LED lighting overhead in the Passenger Service Units with adjustable settings and ten elliptical windows with window shades. GoGo Biz Air To Ground (ATG) Internet Service w/ Wi-Fi Access.

EXTERIOR
